Vascular & Interventional Radiology – Minimally Invasive Image-Guided Treatments

- | | |
|---|--|
| ☐ Abnormal ABI | ☐ Knee Pain (Osteoarthritis) |
| ☐ ABI Testing | ☐ Leg Claudication |
| ☐ Arterial Disease | ☐ Leg Pain, cold feet, numbness, discoloration |
| ☐ Arterial Ultrasound | ☐ Leg Swelling (Edema) |
| ☐ Critical Limb Ischemia | ☐ Painful Diabetic Neuropathy |
| ☐ Diabetic Vascular Screening | ☐ Peripheral Artery Disease |
| ☐ Diminished Pedal Pulses | ☐ Plantar Fasciitis - Heel Pain |
| ☐ DVT Evaluation / Management | ☐ Nonhealing Wounds |
| ☐ Foot / Nerve Pain
(Diabetic Peripheral Neuropathy) | ☐ Restless Leg Syndrom |
| ☐ Gangrene | ☐ Uterine Fibroid Embolization-Pelvic Pain |
| ☐ Iliac Compression / May-Thurner Syndrom | ☐ Varicocele Embolization |
| ☐ Other: _____ | ☐ Varicose Veins |

Advanced Wound Care

- ☐ Diabetic foot Ulcers
☐ Venous Ulcers
☐ Nonhealing Wounds
☐ Ischemic Wounds / poor circulation
☐ Gangrene of tissue necrosis
☐ Post-Amputation wound complications
☐ Wounds with suspected vascular insufficiency
☐ Other: _____

» ICD 10 Codes:

- | | |
|--|--|
| ☐ I73.9-Peripheral vascular disease, unspecified | ☐ R20.0-Numbness to skin |
| ☐ E11.621-Type 2 diabetes mellitus with foot ulcer | ☐ M72.2-Plantar Fasciitis |
| ☐ R60.0 – Localized edema | ☐ R32.0-Cyanosis (bluish discoloration) |
| ☐ I96 - Gangrene | ☐ I83.10-Varicose Veins w/ Inflammation |
| ☐ M76.671- Pain to Right Foot | ☐ I87.2 -Venous Insufficiency (chronic) |
| ☐ M76.672- Pain to Left Foot | ☐ R26.2-Difficulty in walking |
| ☐ R09.89-Diminished Pedal Pulses | ☐ M62.81-Muscle Weakness |
| ☐ M17.11-Osteoarthritis Right Knee | ☐ E11.40-Diabetic Neuropathy |
| ☐ M17.12-Osteoarthritis Left Knee | ☐ N92.0 -Excessive menstrual Bleeding |
| ☐ M25.561-Pain to Right Knee | ☐ N92.1-Heavy menstrual bleeding |
| ☐ M25.562-Pain to Left Knee | ☐ R10.2 -Pelvic Pain |
| ☐ M79.604-Pain to Left Leg | ☐ D25.9-Uterine Fibroid |
| ☐ M79.605-Pain to Right Leg | ☐ M54.50-Low back pain |

ICD 10's for Wound Care

- ☐ E11.621 -Type II DM w/ foot ulcer
☐ L97.509- Non-pressure chronic foot ulcer
☐ L97.909- Non-pressure chronic ulcer leg
☐ L97.519- Non pressure chronic ulcer of RLE
☐ L97.529-Non pressure chronic ulcer of LLE
☐ I96- Gangrene
☐ T81.89XA- Other complications of procedures
☐ Other: _____

Houston, TX 77054

5. West Houston / Sugarland

9130 Highway 6 South
Houston, TX 77083

MEET OUT PROVIDER

DR. AMIT K. SHARMA M.D.

At Vascular Centers of Texas, we believe vascular health is about more than just circulation it is about restoring your quality of life. Led by board-certified Vascular and Interventional Radiologist Dr. Amit K. Sharma, our practice is defined by a deep commitment to compassionate, patient-centered care. Dr. Sharma is widely recognized for his integrity and conservative approach; he prioritizes your long-term well-being above all else, ensuring that procedures are recommended only when they are truly necessary to achieve the best outcome. Our team specializes in advanced, minimally invasive treatments for a wide range of conditions, including Peripheral Arterial Disease (PAD) for leg pain and non-healing wounds, Chronic Venous Insufficiency (CVI) for leg swelling, and Uterine Fibroid Embolization (UFE) for symptomatic fibroids. We also provide innovative, image-guided relief for chronic pain, such as Spinal Cord Stimulation (SCS) for diabetic neuropathy, Genicular Artery Embolization (GAE) for knee osteoarthritis, and Plantar Fascia Embolization (PFE) for chronic plantar fasciitis. At our core, we combine cutting-edge clinical expertise with a genuine, patient-first philosophy, ensuring every individual receives a personalized, evidence-based care plan.

“We treat every patient as if they were
our own family. Our outcomes matter
because our people matter.”

-Dr. Amit K. Sharma
